**Subject: Recommendation Letter for Mr. Stefanos Georgiou**

Dear Sir/Madam,

This reference letter aims to support the applications of Stefanos Georgiou (with passport number BS3442457) for the application of a Canada Visa for work permit. I have supervised Stefanos during his time at Singular Logic's Research and Development department for European projects for the duration of three years (starting from January 2016 until January 2019).

Stefanos was employed in our company at the Software ENgineering in Enterprise Cloud Applications project (SENECA), a Marie-Curie European Industrial Doctorate funded program. Such European programs support a PhD student to perform their industrial and academic research. At the same time, Stefanos had to be enrolled as a PhD student at the Athens University of Economics and Business (AUEB) under the supervision of Professor Diomidis Spinellis to perform research on the Energy Efficiency of Cloud Systems in order to obtain his PhD degree.

Stefanos's main responsibilities at Singular Logic was to support in research proposals writing and participate in Skype calls, while at AUEB he had to write research papers, assist his PhD advisor in his course, and supervise students to write research papers. As for his total annual salary was € 31.522,96 and benefits such as 13th and 14th salary. Moreover, the company was responsible for covering his research conference fees such as aeroplane tickets and accommodation.

Sincerely,

Stelios Pantelopoulos,  
Head of Europeans Project Department
